FACIALS

All facials include a double cleanse, exfoliation, steam, extraction, masque, paraffin and massage of shoulders, arms and hands. Duration of 1 hour.

**Skinfinite Signature Facial**
A Theraderm facial designed for all skin types and made to address all skin concerns including acne, wrinkles and uneven skin tone. All products used in this treatment are oil, gluten, paraben, and fragrance free. $75

**SkinCeuticals Facial**
Prevent with antioxidants, correct with alpha and beta hydroxy acids and protect with award winning sunscreen. We can customize this facial to any skin type, concern or need. $75

**Beaute Pacifique Facial**
An intensive anti-aging treatment designed to combat fine lines and wrinkles, improve the loss of elasticity and stimulate collagen. Your skin will look healthy with a smooth appearance and glow. $85

**Ageless Facial**
Utilizes AHA blends, nutripeptides, retinols, lightning agents and anti-oxidants to produce younger looking skin. Skin that looks older, photo damaged, pigmented, dull or tired will be rejuvenated. $75

**Vital C Facial**
Promote cellular turnover and brighten, tighten and lighten your skin with Vital C. The combination of Vitamin C, antioxidants and peptides quenches your skin, diminishes the appearance of fine lines, and restores the vitality and texture of your skin. Ideal for environmentally damaged, dry, dull, oily, acneic and Rosacea skin. $75

**Clear Cell Facial**
A highly effective acne skin care line that utilizes the most effective acne fighting ingredients and potent anti-inflammatory botanicals. Clear Cell fights acne, reduces inflammation, eliminates excess oil and purifies skin. $75
**Max Facial**
A progressive exfoliating treatment that contains the most advanced fusion of ingredients including plant derived stem cells, peptides, AHA’s and more sophisticated forms of Vitamin C – all working together to provide the maximum in correction, prevention and nutrition to even the most neglected skin. $90

**Illuma Facial**
Lighten, Brighten and Illuminate the skin! This luxurious treatment helps to correct hyper-pigmentation, uneven skin tone and acne scarring, leaving the skin hydrated and illuminated. $75

**OrMedic Facial**
An infused blend of organic and medically effective ingredients designed to rebalance tired, stressed and dull looking skin. With highly potent anti-oxidants and no chemicals, acids or parabens, this facial is perfect for all skin types. $90

---

**HYDRAFACIAL**

HydraFacial MD is a non-invasive, multi-step treatment that combines the benefits of next-level hydramabrasion, a chemical peel, automated painless extractions (no pinching!) and a special delivery of antioxidants, hyaluronic acid and peptides. It does all of this in one quick treatment that delivers real results without downtime or irritation. Duration of 45 minutes. $200

**Hydra Facial Add Ons** - These are additional add ons to enhance your treatment and to help with various skin conditions.

- **LED Red Light/ Blue Light** - Softens fine lines & wrinkles, helps hyper-pigmentation, calms areas of red, irritated skin. This light therapy is great for patients that have not responded well to antibiotic therapy for problematic acne. $50

- **Dermabuilder “Botox in a bottle”** - This uniquely formulated combination of peptides is designed to help stimulate collagen production and improve cell structure strength. It helps to reduce fine lines and wrinkles. $50

- **Lymphatic Drainage** - This gentle treatment encourages the natural circulation of the lymph, removing wastes, toxins, and excess water while increasing the flow of fresh oxygen and nutrients to the skin. Good for tired and puffy areas on face & under eyes. $50

- **Britenol** - Intensive spot corrector, clinically proven to eliminate brown spots, sun spots and hyper-pigmentation without the use of harsh chemicals. $50

- **CTGF** - Stimulates tissue repair and regeneration, reduces fine lines and wrinkles while promoting formation of elastic fibers and collagen to achieve soft & supple skin. $50
A chemical peel is a non-surgical procedure that improves the skin texture and radiance. Support healthy collagen levels for firmer skin. Diminish fine lines and wrinkles. Lighten dark spots and even out skin tone. Reduce acne blemishes and help prevent future breakouts. Revitalize sensitive skin while decongesting pores.

**O2 Lift**
This luxurious treatment infuses oxygen, plant-derived stem cells, peptides and a high concentration of enzymatic botanicals into the skin leaving it luminous, refreshed and rejuvenated. $140

**OrMedic Lift**
A blend of pumpkin, pineapple, papaya, and mango fruit enzymes and peptides in an organic aloe vera gel base; this non-chemical peel rebalances, regenerates, and restores skin while comfrey plant stem cells recharge your skin’s stem cells helping to maintain youthfulness of skin. $140

**The Signature Facelift**
Our signature results-driven treatment combines vitamin C, hydroxy acids and enzymes to speed up cellular renewal. New technology of centella stem cells support rosacea/redness prone skin and botanical detoxifying and energizing complexes give noticeable results in just one session. $140

**Lightening Lift**
Uneven complexions have met their match. The results-driven treatment combines the most innovative and effective botanical brighteners luminescence and seashine with echinacea plant-derived stem cells and anti-aging peptides immediately leaving the skin younger looking and luminous. $140

**Acne Lift**
A potent blend of alpha and beta hydroxy acids blended with lilac plant-derived stem cells to reduce blemishes, redness and diminish post breakout dark spots. Detoxifying ylang ylang and eucalyptus purify oily skin and effectively treat and heal acne lesions. $140

**Wrinkle Lift**
This ultra-resurfacing blend of glycolic acid and retinol visibly reduces the appearance of fine lines and wrinkles leaving skin firm and revitalized. Buddleja stem cells reduce inflammation and diminish photo-aging, botanical coffee and peppermint energize, while eucalyptus and ylang ylang purify the skin. $140
**Beta Lift**
This powerful non-blended beta hydroxy acid treatment quickly and effectively targets and improves moderate/severe acne. $140

**Perfection Lift**
Our exclusive blend of exfoliating agents are combined with powerful anti-oxidants, correcting peptides and plant-derived stem cells to create “perfection” when treating advanced pigmentation, acne and aging conditions. $140

**SkinCeuticals Pigment Balancing Peel**
Our SkinCeuticals pigment balancing treatment helps to accelerate cell renewal and dramatically improve the uneven appearance of photodamage, and reveal smoother, brighter skin. $85

**Gel Peel Salicylic/Mandelic**
SkinCeuticals Gel Peel SM (salicylic-mandelic) is a light, safe and naturally derived chemical peel that cleanses skin and clears congested pores while exfoliating and evening out skin complexion. All while being virtually painless! $85

**SkinCeuticals Lactic Peel**
Reduces signs of photo aging including fine lines, wrinkles, dullness and visible skin imperfections in a series of 4-6 procedures. $85

**Gel Peel Glycolic/Lactic**
This light chemical peel revitalizes photo-damaged skin, helps improve appearance of discoloration, stimulates collagen synthesis & elastin fibers while promoting cell renewal. Also reduces formation of fine lines & wrinkles. $85

**Micropeel Plus Salicylic**
This treatment promotes the skin’s renewal process to aid in the reduction of acne and to improve rough texture, blotchiness, and uneven skin tone. $85

**Jessner Peel**
The Jessner Peel was designed to remove superficial layers of skin, dry out active acne, dislodge blackheads, reduce shallow wrinkling and scarring, help lighten hyper pigmentation and improve the overall appearance and health of sun-damaged, acne prone, aging skin. $140

**TCA Orange Peel**
A physician-only TCA/salicylic acid peel that aggressively treats aging and sun damaged skin. A single application reveals a new you! $200

**Frost Peel (Jessner/TCA) -** $200

**TCA -** Call for details. 10% $200, 15% $250, 20% $350.
MICRODERMABRASION

DermaSweep, MD is a form of microdermabrasion that is performed without the use of crystals. Unique bristle attachments, ranging from coarse bristles designed to treat rougher areas to more gentle bristles that are exceptional for the delicate skin around the eyes, gently lift the skin surface. This allows layers of dead skin to be swept away, resulting in a deeper exfoliation and polish of your skin. The increased blood flow encourages collagen formation, thus firming and toning your skin.

**DermaSweep**
A clinical microdermabrasion treatment that exfoliates your skin leaving a smoother and fresher looking skin. Duration of 1 hour. $90

**Facial & DermaSweep**
This treatment combines both the exfoliation of the DermaSweep and a custom tailored facial to meet your skincare needs. It also includes paraffin wax for the hands, a hydration masque and massage of the hands, chest, shoulders and neck. Duration of 1 and 1/2 hour. $150

**Clinical Dermaplane**
Dermaplaning is a non-invasive and painless procedure in which the surface dead skin cells are manually scraped away. This increases cellular turnover, smoothes and softens skin providing immediate results. Duration of 1 hour. $125

WAXING

Waxing is a form of semi-permanent hair removal which removes the hair from the root. New hair will not grow back in the previously waxed area for four to six weeks, although some people will start to see regrowth in only a week due to some of their hair being on a different growth cycle. Almost any area of the body can be waxed, including eyebrows, face, pubic area (called bikini waxing), legs, arms, back, abdomen and feet. There are many types of waxing suitable for removing unwanted hair.

- Lower Legs: $45
- Upper Legs: $40
- Brazilian: $70
HALO Treatment

The Halo is the world’s first hybrid fractional laser. It simultaneously delivers non-ablative and ablative wavelengths in a single pass over the skin. An ablative laser has long been considered one of the most effective treatments for improving the signs of aging. By removing the outer layers of damaged skin, the skin is forced to heal, increase collagen production and restructure, making way for tighter, rejuvenated skin. The downfall of an ablative laser is the recovery and downtime needed, often 1-2 weeks.

A non-ablative laser treatment is far less invasive with little-to-no downtime. By heating up the outer layers of skin but not removing them, a non-ablative laser treatment is popular for patients who need to return to their everyday lives right after treatment. The downfall here is a series of several treatments are needed to achieve desired results with a non-ablative procedure.

The Halo Hybrid Fractional Laser focuses energy on the deeper collagen layer of skin leaving the surface of your skin largely in tact for a quicker healing time. It delivers the results of an ablative procedure with little-to-no downtime, like a non-ablative treatment. The best of both worlds!

SkinTyte

SkinTyte utilizes infrared energy to deeply heat soft tissue while protecting the entire treated area with sapphire contact cooling. Targeted heating causes soft tissue coagulation and collagen contraction. This process initiates the body’s natural healing process, resulting in a firmer, more youthful skin appearance. The full effect of skin firming treatments can be seen over several subsequent months. Duration of 45 min. $500
BroadBand Light Treatment (BBL)
BBL BroadBand Light technology utilizes the power of pulsed light to deliver excellent phototherapy results. By selecting the appropriate wavelength or filter, the physician will be able to treat a broad range of skin conditions caused by skin aging and sun exposure. The light energy delivered by the BBL gently heats the upper layers of the skin. The heat absorbed by the targeted areas coagulates tissue to variable depth. This process helps restore the skin to its natural state. In addition, the photo-thermal energy targets and eliminates many of the fine vessels that cause redness and the unwanted melanin responsible for pigmented lesions.
Numb 45 mins & Duration of 30 mins to 1 hour.

Face: $500
Face & Neck or Face & Chest: $600
Face, Chest & Neck: $1000
Hands: $200
Lower Arms & Hands: $600

Laser Hair Removal
This treatment provides a treatment that is safe, fast, efficacious, and comfortable. The motion BBL technology allows for extremely even heating of hair follicles and minimizes missed areas that occur with traditional hair removal devices.

15 Minute Treatment: $150  30 Minute Treatment: $300  45 Minute Treatment: $450

Microlaser Peel
MicroLaser Peel procedure was designed for those wanting more than microdermabrasion or light chemical peels, and have little time for a prolonged healing process. Skin conditions such as wrinkles, scars, acne scars, laxity, keratoses, and pigmentary problems have been treated with a MicroLaserPeel.
Numb 45 mins & Duration of ½ hour.

MicroLaser Satin Peel: $250
MicroLaser Peel 10-14 Microns: $500
MicroLaser Peel 15-20 Microns: $1000

Acne Treatment
Acne is a disorder resulting from the action of hormones and other substances on the skin’s oil glands, sebaceous glands and hair follicles. Propionibacterium acnes (P. acnes) are the anaerobic bacterium that causes acne. Severe acne can lead to permanent scarring. ThermaScan’s infrared energy at a 1319 nm wavelength and BBL’s 420 nm wavelength allow controlled heating of sub-epidermal layers of the skin. The pulse duration and high scattering coefficient limit the heated region to a uniform thin layer at the epidermal-dermal boundary. With proper treatment, the procedure will lead to collagen remodeling, proliferation of active fibroblasts, and treating over-acting sebaceous glands that result in the reduction of acne and improve acne scarring non-ablatively. 6 treatment series. $1200
INJECTABLES

Botox
Botox Cosmetic targets one of the underlying causes of frown lines and crow’s feet—the repeated muscle contractions from frowning and squinting over the years. Your provider will inject these muscles with Botox Cosmetic to temporarily reduce muscle activity. You will begin to notice a visible smoothing of your crow’s feet lines and frown lines between your brows. Duration of ½ hour. $13 per unit.

Xeomin
A prescription medicine that is injected into the muscle and used to temporarily improve the look of moderate to severe frown lines between the eyebrows in adults. Duration of ½ hour. $11 per unit.

Juvederm XC
Juvederm XC injectable gel is for injection into areas of facial tissue where moderate to severe facial wrinkles and folds occur to temporarily add volume to the skin, especially around the nose and mouth. Lasts up to 12 months. Numb 45 min & Duration of ½ hour. $600

Juvederm Ultra Plus XC
Juvederm Ultra Plus XC injectable gel is for injection into areas of facial tissue where moderate to severe facial wrinkles and folds occur to temporarily add volume to the skin. This soft formula works when injected into the lips. Lasts up to 12 months. Numb 45 min & Duration of ½ hour. $600

Juvederm Voluma XC
Juvederm Voluma XC injectable gel is for deep injection in the cheek area to correct age-related volume loss in adults over the age of 21. Lasts up to 2 years. Numb 45 min & Duration of ½ hour. $1000

Radiesse
Radiesse is a dermal filler that is indicated for hand augmentation to correct volume loss in the back of the hands, and for smoothing moderate to severe facial wrinkles and folds, such as nasolabial folds (the creases that extend from the corner of your nose to the corner of your mouth). Numb 45 min & Duration of ½ hour. 1.5mL Syringe: $850.00

Belotero
Belotero is a prescription injection that is approved to temporarily smooth out and fill in moderate-to-severe nasolabial folds (the folds or wrinkles that go from the side of the nose to the corner of the mouth). Numb 45 & Duration of ½ hour. $600
**Restylane**
Restylane can be used to add volume and fullness to the skin to correct moderate to severe facial wrinkles and folds, such as the lines from your nose to the corners of your mouth (nasolabial folds). Numb 45 min & Duration of ½ hour.
1mL Syringe: $580
.5mL Syringe: $310

---

**W E L L N E S S   S P A & M A S S A G E S**

**Human Chorionic Gonadotropin (HCG) Injections - (Weight loss Program)**
The hCG weight loss program combines a low calorie diet with pain-free, subcutaneous injections of hCG. Normally, if someone were to start a low calorie diet, he or she would experience hunger, cravings, fatigue, feel miserable, lose structural fat and muscle mass.
Loss of structural fat is a problem because it provides a layer of cushioning to the body, most importantly around vital organs, soles of the feet and palms of the hands.
Loss of muscle mass is equally problematic when dieting and can give people a gaunt, unhealthy look. Loss of muscle mass also reduces the body’s caloric requirements, negating effectiveness of the low calorie diet and reducing overall weight loss.
hCG solves both of these problems by turning the body onto abnormal or unwanted “depot” fat, enabling rapid loss of body fat while retaining muscle mass and structural fat. Aside from losing weight, reducing abnormal fat is beneficial in terms of overall health since it is responsible for the onset of a wide variety of chronic diseases.

- 20 Day Cycle: $450
- 40 Day Cycle: $900

**Skinfinite Rest & Relaxation**
Skinfinite’s Signature massage is designed to reduce stress and tension.
Duration of 1 hour. $100

**Lymphatic Drainage Massage**
Lymphatic nodes are stimulated to assist drainage. It provide relief from chronic inflammation and is used in pre-operative applications. Duration of 1 hour. $100

**Pregnancy Massage**
Pregnancy massage have been found to reduce stress, decrease swelling in the arms and legs, and relieve aches and pains in muscles and joints. Duration of 1 hour. $100

**Deep Tissue Massage**
Skinfinite’s Deep Tissue massage gets to the root of your muscle aches. Duration of 1 hour. $100
**Endermologie**
This treatment combines gentle suction with two active rollers, creating a symmetrical skin fold. Specifically designed maneuvers are applied first on the back, followed by the buttocks, thighs, legs and abdomen during the 30 minute total body treatment. Your Endermologie technician will individualize each treatment by focusing on clients' specific problem areas Endermologie smoothes the interface layer between the dermis and hypodermis.

(6) 30 Minute Treatment Series: $450  
(6) 1 hour Treatment Series: $900

**Vaser Shape**
VASER Shape is a non-surgical body shaping technology designed to contour unwanted fat pockets using massage and targeted ultrasound. High frequency energy is targeted at the fatty tissue and is designed to temporarily reduce the appearance of cellulite.

(6) 45 Treatment Series: $3000

**ThermiTight**
ThermiTight is a painless, micro-invasive procedure, which usually takes less than one hour, with little or no downtime. A tiny probe is inserted under the skin. Then, radiofrequency energy is applied directly to the target tissues causing immediate shrinkage. Results are immediate and improve over time. Patients may experience slight swelling and redness and are usually able to return to normal activity within 24 hours. ThermiTight is a single treatment solution which produces a three-dimensional improvement in the appearance of skin laxity. The effects have been shown to last several years.

Face & Neck: $2700  
Lower Face & Neck w/ Liposuction: $4150  
Abdomen: $4000  
Thighs: $4000

**ThermiSmooth**
After applying a small amount of coupling gel, the ThermiSmooth hand piece is applied to the skin’s surface. The ThermiRF system is set to a specific target temperature (i.e., 42°C - 45°C). The hand piece is gently moved in a sweeping or circular fashion while gradually heating up the skin surface. As the skin’s temperature rises to the targeted temperature, the ThermiRF computer automatically adjusts the energy output to ensure precision of heating. A small zone is treated for about 5 minutes to achieve the goal of sustained heating to the target tissues. Treatments are repeated several times to achieve the desired cosmetic result.

Sciton HALO treatment

Halo Hybrid Fractional Laser for Facial Rejuvenation
Finally, get the results you want without the downtime you would expect. Sciton, an authority in aesthetic lasers has introduced the Halo Hybrid Fractional Laser and Dr. Desjarlais is one of the first doctors in the country to offer this revolutionary treatment.

What Can the Halo Fractional Laser Treat?
The dual wavelengths unique to the Halo laser allow Dr. Desjarlais to completely customize each patient’s treatment based on their skin’s unique needs and the desired downtime. Patients can expect to see improvements to:
> Fine lines and wrinkles
> Pores
> Hyperpigmentation from sun damage
> Uneven skin tone and age spots
> Acne or chickenpox scars

What Makes the Halo Laser Different?
The Halo is the world’s first hybrid fractional laser. It simultaneously delivers non-ablative and ablative wavelengths in a single pass over the skin.
An ablative laser has long been considered one of the most effective treatments for improving the signs of aging. By removing the outer layers of damaged skin, the skin is forced to heal, increase collagen production and restructure, making way for tighter, rejuvenated skin. The downfall of an ablative laser is the recovery and downtime needed, often 1-2 weeks.
A non-ablative laser treatment is far less invasive with little-to-no downtime. By heating up the outer layers of skin but not removing them, a non-ablative laser treatment is popular for patients who need to return to their everyday lives right after treatment. The downfall here is a series of several treatments are needed to achieve desired results with a non-ablative procedure.
The Halo Hybrid Fractional Laser focuses energy on the deeper collagen layer of skin leaving the surface of your skin largely intact for a quicker healing time. It delivers the results of an ablative procedure with little-to-no downtime, like a non-ablative treatment. The best of both worlds!

What to Expect at a Halo Laser Treatment
You can expect to be at the office for 2-2 ½ hours. The first hour is spent applying the numbing cream and allowing it to take effect. The treatment itself takes 30-45 minutes. In-office recovery time is 30 minutes where a cold air fan dissipates the heat from your skin.

After Your Halo Laser Treatment
Immediately after your Halo treatment, Cicalfate, a restorative skin cream will be applied to the treated areas to keep the skin moist. Swelling and redness is common and expected after treatment. The area may also feel extremely warm for 12-24 hours post op. Cold compresses will help calm the warmth in your skin and help reduce swelling.
When leaving the office you will look like you’ve been in the sun a bit too long but you can resume your normal business day.

On the second or third day after treatment, you will begin to notice tiny dark spots and a bronzed appearance to the treated skin. This is part of the healing process where treated tissue is working its way out of your body as new fresh skin is regenerated. During this time, your skin will be very dry and have a sandpaper texture. It will begin to flake and peel. For the face, this can last 5-7 days. If the neck, chest or anywhere else on the body was treated, this process could take up to two weeks.

After the peeling process is complete, your skin will have a rosy, pink glow that will gradually resolve. Sunscreen is a MUST throughout the entire healing process. It should be applied daily beginning the day of treatment and used vigilantly for up to three months post procedure. A post op kit will be provided to you for cleansing and exfoliating the skin. Any post treatment discomfort may be relieved by over the counter oral pain relievers.
